## Important Information

Boarding gates are subject to change. Please check your gate on the airport screens, in our app, or at [Copa.com](#).

During holidays, peak seasons, or busy times, arrive at the airport early to clear security checks and be on time at the boarding gate.

## Other considerations:

Make sure to carry all the necessary documents for your itinerary. If traveling to a country with a risk of yellow fever, don't forget your corresponding vaccination certificate.

Your travel documents require further verification at the airport. Please complete this step at a self-service kiosk, or with an agent at a check-in counter or gate.
